

# Explore Cutting-Edge Security Solutions

AMALGAMATED SECURITY SERVICES LIMITED

at the 37th  
Association of Caribbean Commissioners of Police  
Annual General Meeting & Conference, 2023

with

**Amalgamated Security Group of Companies**

## DEAR EVENT ATTENDEE

We are thrilled to invite you to join us at the 37th Association of Caribbean Commissioners of Police Annual General Meeting & Conference, 2023, where we will be showcasing our latest advancements in security hardware and software specifically designed for law enforcement agencies.

This is an excellent opportunity for you to explore cutting-edge technologies that can enhance public safety and empower your law enforcement operations.

*At our Amalgamated Security booths, located at the main exhibition hall near the main entrance to the sessions, you'll have the chance to witness firsthand how our innovative solutions can revolutionize your agency's approach to security.*

*Our team of experts will be available for one-on-one sessions to provide in-depth demonstrations and address any specific requirements or questions you may have. Whether you're looking to enhance surveillance systems, streamline data analysis, or strengthen your overall security infrastructure, our comprehensive range of products and services has got you covered.*

## KEY HIGHLIGHTS OF OUR OFFERINGS INCLUDE:

### FORENSIC SERVICES

Forensic analysis tools and techniques for digital investigations and evidence collection.

Expert consultation services to aid in criminal investigations and case resolution.

### COMMAND SOLUTIONS

Tools for comprehensive data management, intelligence sharing, and collaboration among law enforcement agencies.

Advanced analytics capabilities for identifying key gang networks, patterns, and hotspots

### GANG TRAINING COURSES

Expert-led training programs focusing on understanding gang dynamics, gang intelligence gathering, and investigative techniques.

Strategies for effective gang prevention, intervention, and suppression.

Information on gang trends, identification, and analysis to aid in proactive law enforcement efforts.
